

## Our Church

Peoples Baptist Church is a community of believers who confess Jesus Christ as their Savior and Lord. We accept the Scriptures as our only authority in the life of the church and in our private lives. We believe that the Gospel speaks to the human condition and is relevant to every aspect of life. Our primary mission is to bring men, women and children into a saving relationship with Jesus Christ and to nurture them in their faith.

Our members representing every sector of life, are drawn from the Greater Boston area. Our worship, which is in the black religious tradition, is designed to be spiritually uplifting, intellectually challenging, and socially relevant. We have been serving Boston's African-American community since our organization on Beacon Hill in August 1805, as the first African Baptist Church.
